Survey Results

January 3, 2008

A survey of the membership of the Missoula Area Chamber of Commerce was conducted the last two weeks of December 2007. The intent of the survey was to glean out information on improvements that could be made at our airport. We were given 9 questions by the airport management that pertained to the use, why we use the Missoula airport, parking, ease of operation, access, security, and customer service. The response to the survey was quick as 204 respondents answered within the limited time frame.
