

Kevin Bilant –

I am a native of Whitefish, Montana, where I was born and raised. I attended Montana State University and earned a Bachelor of Science degree in Civil Engineering. For over 11 years, I have been a partner, civil engineer, and project manager at WGM Group in Missoula. I specialize in commercial and multi-family site design, with notable projects including the Southgate Mall Theater, the University of Montana Champion Center, the Trinity Apartments, the new UM Residence Life Hall, and the Temporary Safe Outdoor Space for Missoula's houseless population. The latter project received the American Council of Engineering Companies' Engineering Excellence Honor Award as an innovative pilot project addressing Montana's housing crisis. I am passionate about making a positive and meaningful impact on our community. In my free time, I enjoy hunting, fishing, golfing, skiing, and taking advantage of the many recreational opportunities Montana offers.
