

I was born and raised in Montana and graduated with my master's degree from the U of M in 1999. I have one beautiful daughter that will also graduate from the University in December.

I worked for the U of M Bookstore as the Textbook Department Manager and have now found myself working with the amazing folks at ALPS Insurance Agency.

I love to hike, garden, float and you will find me at the gym most weekdays. And I will NEVER pass up the opportunity to pet and hug a dog!
