I was born and raised in Missoula, the youngest of five kids. My husband is also a local and we love raising our three children in the town we grew up in. This year we'll have a freshman at Sentinel, a 6th grader at Porter and a 4th grader at Jeannette Rankin. We absolutely love Montana summers and look forward to plenty of time together camping at the lake.

I started at First Interstate Bank as a teller in 2008. After spending a few years learning this role I moved on to our Financial Services department where I currently reside. I specialize in personal and small business loans as well as handle any new account or account maintenance.

I love our community and doing what I can to serve it. First Interstate Bank has always been a huge advocate with volunteering so I'm excited to see what additional opportunities the LM program will bring.
