

LM 39 Bio

Nikki Adair
Financial Service Representative III
First Interstate Bank
nikki.adair@fib.com
B: 406-523-4273
C: 406-529-8129

I began my banking career in 2015 after working 6 years at the Good Food Store. I started as a teller and have continued to grow in my development within the bank since then. My most recent accomplishment being a personal and small business lender. Along with lending, I also assist clients with new accounts and basic banking needs. I take pride in my work daily and love helping meet and exceed the needs of our clients.

I was born and raised here in the Missoula area. I grew up in Lolo and now continue to raise my own family in Lolo just a block away from my childhood home. I am a Sentinel High School graduate, class of 2012. My husband Shawn and I have two daughters, Kinleigh (9) and Harper (4). They keep us busy, and we love to make memories together as a family. Shawn and I just celebrated our 10-year wedding anniversary this year after getting married right out of high school and being long time friends since sixth grade.

During my free time, I love to craft, bake, camp, travel and spend a lot of time outdoors in beautiful Montana. Our summers consist of several weekend lake trips to various lakes around the state, our favorite being Lake Como in the bitterroot valley.

First Interstate puts a lot of focus into community involvement, and I love being able to volunteer at various organizations around town when I can. I am eager to see where LM takes me and look forward to developing new skills and building new relationships with other professionals within the community.
