

Cam Humphrey Bio

My name is Cam Humphrey, I graduated from The University of Montana in 2022 with my MBA and a bachelor's degree in organizational communication. Through the course of completing my degrees I also Quarterbacked the Griz football team from the 2020 and 2021 season. During my career both on and off the field I was able to make some amazing friendships and connections with teammates, classmates, coaches, and the entire community of Missoula.

Since my graduation and retirement from football I have been working as a Financial Advisor for an Independent Wealth Management Firm called Pintler Wealth Management. My main focus involves educating and informing prospective clients and anyone interested in the importance of planning for your financial future as well as giving them the tools to do so through Pintler. I plan to call Missoula my long-term home and can't wait to continue building valuable relationships with the wonderful people of Missoula.
