My name is Kimber Smith and I am a licensed clinical professional counselor and a licensed addictions counselor. I currently own my own practice and provide mental health services to individuals ages 15-62.

I grew up playing basketball in a small farming community in North Central Washington near Grand Coulee Dam. I was recruited to play college basketball which took me to Oregon and Canada. I eventually ended up playing for Montana Tech in Butte. This is where I met my husband.

I completed my undergraduate degree from Montana Tech and then moved to Billings to complete my Masters of Science in Mental Health and Rehabilitation. My husband and I have 4 children ages 10, 7, 5 and 16 months.

Our family enjoys skiing and outdoor activities whenever possible. I am also very involved in CIT trainings for the State of Montana and interested in continuing to serve military and law enforcement/ first responders and their families.
