Pat Trottier is the Consumer Loan Officer for Opportunity Bank of Montana for the Missoula market. Pat started his banking career in 2010 at Montana First Credit Union where he started as a teller while enrolled at the University of Montana. He stepped into a lender roll with Montana First Credit Union in 2011 after graduating with a degree in Business Management. He enjoys the position of Consumer Lender because of the ability to make a positive difference in people's financial lives.

Pat's educational experience was not very traditional, he started his higher education at Montana State University, looking back he acknowledges the error of his ways and avoids talking about it as much as possible. After changing majors from Mechanical Engineering to Businesses he moved to Boise Idaho to attend Boise State University where he spent the next 3 years. He looks back on this time fondly with many great memories of time spent with amazing friends and family. After Boise State won the Fiesta bowl in in 2007 the class sizes became burdensome and in 2009 Pat made a tough decision to move back to his hometown, Missoula Montana and finish his degree.

Pat enjoys working on his vehicles, to make them faster, less reliable and generally more fun. Though he doesn't get the opportunity to do it as much as he would like he love to take his car to autocross events and track days. He also loves to take his SUV into the mountains to test himself and his vehicle on 4x4 trails. In addition to vehicular fun, he has a passion for fly fishing, boating, skiing and the occasional hike.

Pat got married to the love of his life, Tessa Greene in 2020. Yes, they had a COVID wedding but after making his poor wife wait 7 years to propose, it had to happen. They do not yet have any children but that is on the to do list. He has crazy dog named Melvin who loves to bark incessantly at everyone he meets or sees. As mentioned before, Pat was born and raised in Missoula, in fact his mother still lives in the house he grew up in. He loves most everything about Missoula other than the property taxes; and plans to live out the rest of his days here.
