

Meagan Parsons is native to Montana, being born and raised near Sunburst, MT. She has 3 beautiful children, 3 huskies and a husband of 13 amazing years.

Although she originally received her degree in healthcare, she has spent the last 10 years working as a Project Manager in the Yellowstone Club, managing and bidding architectural/structural metals, as well as countertop fabrication. This last year, she moved to Missoula to be closer to family and decided she needed a change from construction. Shortly after moving here, she was offered the Executive Assistant/Office Manager position with Monida Healthcare Network (MHN). She is very dedicated and passionate about her work and what MHN offers to the communities they work with. Aside from taking minutes for the many committee and board meetings, she enjoys working closely with Monida's CEO on the many lines of business Monida has to offer.

When she is not working, she enjoys spending time with her family camping, fishing, and hunting. She also enjoys painting with acrylics and cooking for family gatherings.
