

My name is Sarah Hankinson, I am the Administrative Assistant for Case Management Caregiving. I have called the Bitterroot home for the past 30 years but currently reside in Missoula, which I am absolutely loving! I graduated from the University of Montana in 1998 with my Associates of Applied Science. After many years of running our business from home (and 5 kids later) I decided to rejoin the work force. I am grateful to have landed at Case Management Caregiving where I truly believe I am making a difference in peoples lives! When I am not working, spending time with my partner, my kids, and my grandkids you will either find me on the Flathead fishing or in the gym deadlifting.
